Re: Conservation Chemical Site

Dear Cynthia:

To confirm our recent telephone conversations, this firm represents Chromium Corporation in matters relating to the Conservation Chemical Company of Illinois, Inc. ("CCCI") Site. All future correspondence relating to the CCCI Site should be directed to my attention.

As we discussed, Chromium Corporation will be present at the "kick-off" meeting on November 10, 1994. However, Chromium has not yet obtained copies of the documents listed on U.S. EPA's CCCI transaction summary. Once Chromium has an opportunity to review these documents, it should be able to inform U.S. EPA of its willingness to participate with other potentially responsible parties in the performance or financing of the activities described in Richard Karl's letter dated September 28, 1994.

Please call me with any questions or comments.

Sincerely,

Randall G. Vickery
